NEW BRUNSWICK
FOREST PRODUCTS COMMISSION

ROLE & FUNCTIONS

(Revised September 2000)

HISTORY

The New Brunswick Forest Products Commission (NBFPC) was established in 1971 by the *Forest Products Act F-21* under the Provincial Department of Agriculture, Fisheries and Aquaculture. The NBFPC was later transferred to the Department of Natural Resources and Energy (DNRE) by an *Act to Amend the Forest Products Act – 1979 c.28, s. 1.*

In 1972, the NBFPC, in conjunction with private woodlot owners and producers in the province, approved plebiscite procedures necessary to establish forest products marketing boards.

In 1977, the proclamation of the *Natural Products Act* gave the NBFPC the same powers vested in the Farm Products Marketing Commission: "Where a board is proposed or established to control and regulate the marketing of primary forest products as defined in the *Forest Products Act*, or any natural products of the forest, the powers and duties of the Commission under this Act shall vest in the New Brunswick Forest Products Commission."

By 1983, seven forest products marketing boards had been established as follows:

1.	1961	Madawaska Forest Products Marketing Board
2.	1973	North Shore Forest Products Marketing Board
3.	1974	Northumberland County Forest Products Marketing Board
4.	1978	York-Sunbury-Charlotte Forest Products Marketing Board
5.	1978	Carleton-Victoria Forest Products Marketing Board
6.	1979	Southern New Brunswick Forest Products Marketing Board
7.	1981	South East New Brunswick Forest Products Marketing Bd.

The original object of the NBFPC at the time of establishment was to encourage and facilitate the achievement of expanding markets and equitable prices for both the producer and the consumer of primary forest products.

RESOURCE OWNERSHIP

The resource land base in New Brunswick totals 7.3 million hectares of which 6.1 million hectares is forest. The productive forest totals 5.9 million hectares or 14.6 million acres. Of the resource land base, 48% is provincial (Crown land), 1% is Federal, 21% is industrial freehold and 30% is owned by the private woodlot owners.

The combined regulated areas of the seven marketing boards encompass the whole of the province.

There are estimated to be 54,000 private woodlots in New Brunswick owned by 35,000 individuals.

ORGANIZATION

The Commission consists of an independent chair and six members. Two represent private woodlot owners; two represent the forest industry; and two represent the provincial Government (one for the Department of Agriculture, Fisheries and Aquaculture and one for the Department of Natural Resources and Energy). The NBFPC generally meets on a monthly basis.

The Commission's daily business affairs are managed by an Executive Director and administrative staff.

The NBFPC, as a near departmental Crown Corporation, administers its affairs in conjunction with the administrative staff of DNRE.

The NBFPC receives its funding from DNRE.

The Commission offices are located at suite 215 – Core Section, Hugh John Flemming Forestry Center, Regent Street Extension, in Fredericton, New Brunswick.

LE ROLE ET LES FONCTIONS DE LA COMMISSION DES PRODUITS FORESTIERS DU NOUVEAU-BRUNSWICK (Dernière révision en septembre 2000)

HISTORIQUE

La Commission des produits forestiers du Nouveau-Brunswick (CPFNB) a été créée en 1971 en vertu de la *Loi sur les produits forestiers* (F-21). Elle relevait d'abord du ministère provincial de l'Agriculture, des Pêches et de l'Aquaculture, mais elle est ensuite passée sous la responsabilité du ministère des Ressources naturelles et de l'Énergie (MRNE) en vertu de la *Loi modifiant la Loi sur les produits forestiers*, 1979, c. 28, art. 1.

En 1972, la CPFNB a, conjointement avec les propriétaires de lots boisés et les producteurs de la province, entériné les modalités référendaires nécessaires à l'établissement des offices de commercialisation des produits forestiers.

En 1977, la promulgation de la *Loi sur les produits naturels* a conféré à la CPFNB les pouvoirs dévolus à la Commission de commercialisation des produits de ferme : " Lorsqu'un office est proposé ou créé pour contrôler et réglementer la commercialisation des produits forestiers de base définis par la *Loi sur les produits forestiers*, ou de produits forestiers naturels, les pouvoirs et fonctions conférés par la présente loi à la Commission sont dévolus à la Commission des produits forestiers du Nouveau-Brunswick. "

En 1983, les sept offices de commercialisation des produits forestiers ci-après avaient été mis sur pied :

1. 1961 Office de commercialisation des produits forestiers du Madawaska
2. 1973 Office de commercialisation des produits forestiers du Nord
3. 1974 Office de commercialisation des produits forestiers du comté de Northumberland
4. 1978 Office de commercialisation des produits forestiers de York-Sunbury-Charlotte
5. 1978 Office de commercialisation des produits forestiers de Carleton-Victoria
6. 1979 Office de commercialisation des produits forestiers du Sud du Nouveau-Brunswick
7. 1981 Office de commercialisation des produits forestiers du Sud-Est du Nouveau-Brunswick

Le rôle initial de la CPFNB au moment de sa mise sur pied consistait à encourager et à faciliter l'expansion des marchés et à veiller à l'établissement de prix équitables pour les producteurs comme pour les consommateurs de produits forestiers primaires.

PROPRIÉTÉ DES RESSOURCES

Le territoire qui recèle des ressources au Nouveau-Brunswick totalise 7,3 millions d'hectares, dont 6,1 millions d'hectares sont constitués de forêts. La forêt productive totalise 5,9 millions d'hectares, soit 14,6 millions d'acres. Quarante-huit pour cent des terres qui abritent des ressources sont des terres provinciales (terres de la Couronne), 1 p. 100 sont des terres fédérales, 21 p. 100 sont des tenures libres industrielles et 30 p. 100 appartiennent aux propriétaires de boisés privés.

Réunis, les sept territoires réglementés des sept offices de commercialisation englobent l'ensemble de la province.

Le Nouveau-Brunswick compte un nombre estimatif de 54 000 lots boisés privés qui sont la propriété de quelque 35 000 personnes.

ORGANISATION

La Commission est composée d'un président et de six membres. Deux membres représentent les propriétaires de boisés privés, deux représentent l'industrie forestière et deux représentent le gouvernement provincial (un provient du ministère de l'Agriculture, des Pêches et de l'Aquaculture et un, du ministère des Ressources naturelles et de l'Énergie). La CPFNB se réunit généralement tous les mois.

Un directeur général bénéficiant du soutien d'un personnel administratif gère les affaires courantes de la Commission.

La CPFNB, à titre de quasi-société d'État ministérielle, administre ses affaires avec la collaboration du personnel administratif du MRNE.

La CPFNB reçoit son budget du MRNE.

Les bureaux de la Commission sont situés pièce 215 - section centrale, Centre forestier Hugh John Flemming, prolongement de la rue Regent, Fredericton (Nouveau-Brunswick).
